HERITAGE DEFENDER

# CLASSIC DEFENDER RESTORATION PROGRAM

A curated build experience, crafted from a decade of Land Rover expertise.

ECD Heritage brings the timeless character of the classic Defender to a more accessible price point without compromising on craftsmanship, reliability, or the spirit of the original vehicle. Each build follows a refined specification path: fewer choices, smarter choices, designed to deliver a high-quality restoration with exceptional value and performance.

Heritage is not “entry-level.” It is purpose-built, intelligent, and honest. A Defender restored with all the efficiencies, engineering learnings, and real-world experience ECD has gained over the past decade.

# STEP ONE

# BASE VEHICLE

The Perfect Starting Point for Your Adventure

Begin your journey with a dependable, adventure-ready foundation, engineered to inspire confidence from the very first mile. This meticulously restored base vehicle offers the flexibility to evolve, serving as the ideal canvas for crafting a Defender that reflects your personal taste, lifestyle, and sense of exploration. The newest vehicle possible will be used for each Heritage restoration, unless a specific year is required. Designed with versatility at its core, it provides the strength, capability, and classic character you need to build something truly your own: a striking, purposeful vehicle tailored precisely to your vision.

# STEP 1

## - BASE VEHICLE

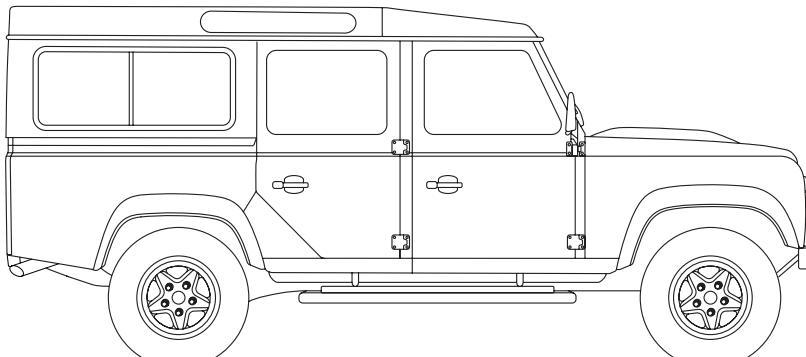

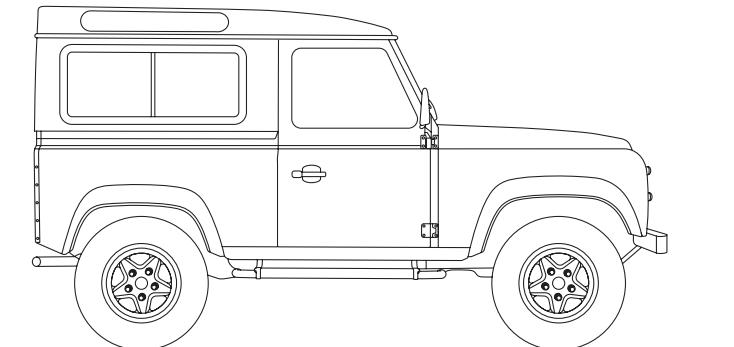

Choose your foundation.

Every Defender Heritage build begins with the same defining choice that shaped the originals: wheelbase. This decision sets the character of your Defender, just as it did the classic models. The D90 captures the essence of weekend escapes, combining compact agility, iconic proportions, and a pure driving experience ideal for couples or solo explorers who value authenticity. The D110 is the quintessential all-rounder, honoring the legacy of the long-wheelbase Defender with added practicality for everyday driving, family life, and longer adventures, delivering versatility without compromising purpose or presence.

D90

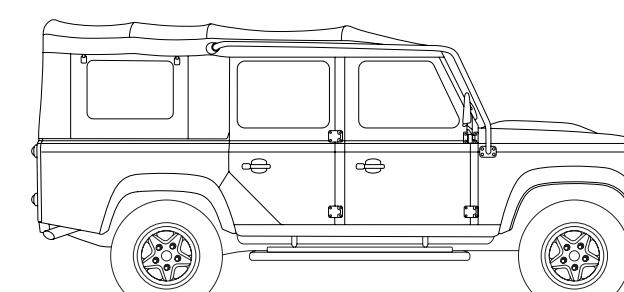

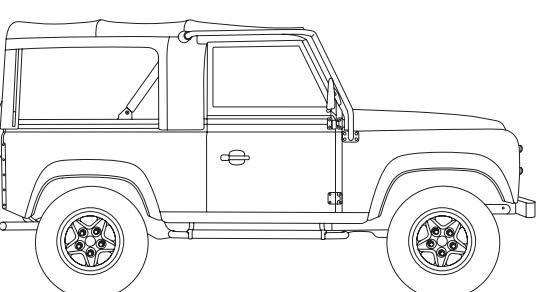

D110

## STEP 2 - BODY STYLE

Define the character of your defender.

Selecting your body style sets the tone for your entire Heritage Build, shaping both its personality and its presence on the road. The Hardtop stays true to the Defender's utilitarian lineage. With year-round usability, added security, and a clean, purposeful silhouette, it's the ideal choice for daily driving, long-distance travel, and owners who appreciate durability paired with classic design (Included with contract). The Softtop celebrates open-air freedom, echoing the expedition and leisure Defenders that defined generations of adventure. Perfect for coastal drives, summer weekends, and immersive journeys, it offers a more visceral, connected driving experience, one that invites the elements in and turns every outing into an occasion. Choose the body style that aligns with your lifestyle and the stories you want your Defender to tell.

## STEP 3 - ENGINE + TRANSMISSION OPTIONS

Choose your powertrain.

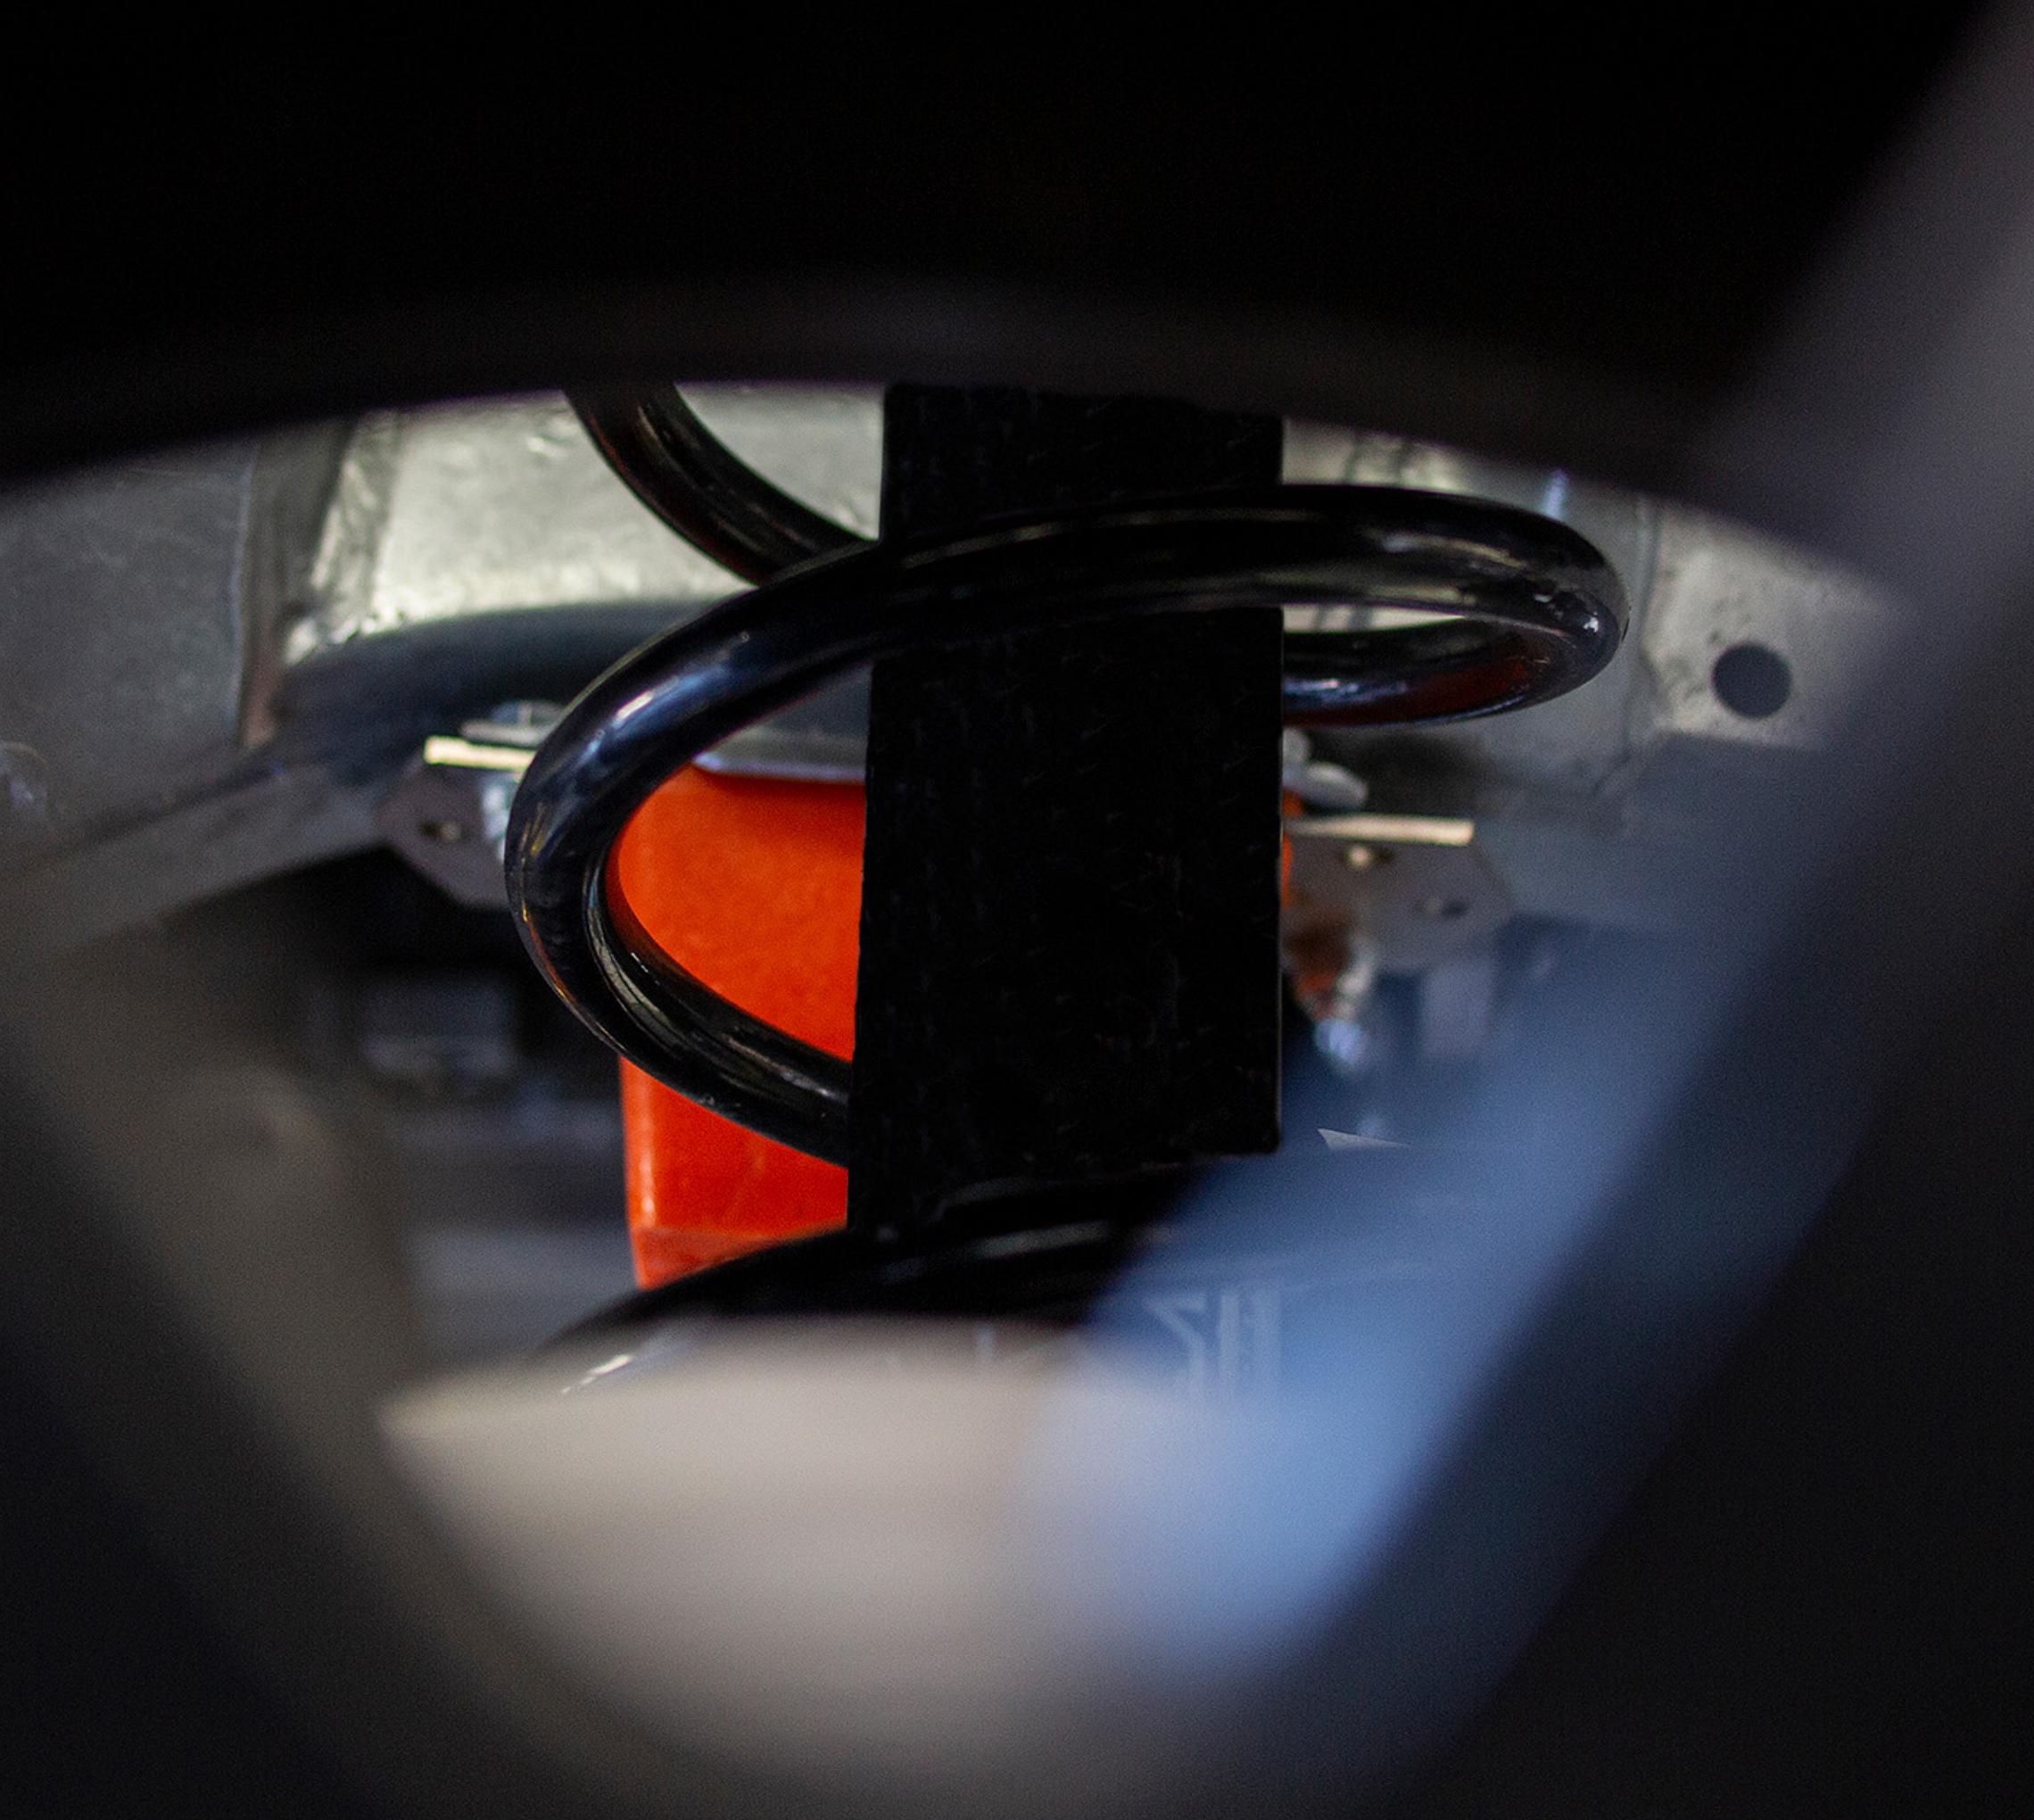

### TD5 Manual - 5 Speed (Included with Contract)

The original TD5 is a true Defender icon, trusted by overlanders and enthusiasts worldwide. With 122 bhp and 221 lb-ft (300 Nm) of torque, it delivers strong low-end pull, proven durability, and classic mechanical character. It's not built for speed; it's built for capability and authenticity.

### 2.3 Ford EcoBoost - Automatic

A modern, refined alternative offering 270 bhp and 310 lb-ft (420 Nm) of torque. Smooth, responsive, and easy to live with, the EcoBoost provides confident daily drivability and effortless long-distance cruising.

## STEP 4

### - SUSPENSION + STEERING OPTIONS

Enhance control, comfort & capability.

- **Standard Setup (Included with contract)**  
OEM shocks and springs, anti-roll bars, and heavy-duty steering bars for balanced comfort, stability, and everyday reliability.
- **Standard Duty Suspension Kit**  
Adjustable Koni shocks paired with OME springs for improved on-road composure and confident off-road capability.
- **Heavy Duty Suspension Kit**  
Adjustable Koni shocks with heavy-duty OME springs for maximum durability on demanding terrain or when carrying additional load.
- **Steering Upgrade**

Terrafirma Return-to-Center (RTC) Steering Damper - An external coil spring delivers sharper self-centering, reduced wobble, and more precise, stable steering both on and off-road. A durable upgrade that enhances confidence and connection behind the wheel.

## STEP 5 - EXHAUST OPTIONS

Select your performance and acoustic profile.

### - Standard Performance Exhaust (Included with contract)

Included as standard, this single-outlet stainless steel system delivers improved performance, durability, and a clean, purposeful exhaust note.

### - Milltek GT90 Cerakote Tips

A bolder, more aggressive option featuring black twin tips on a single side. Offers a deeper, more distinctive tone and a sportier rear aesthetic.

### - Kahn Crosshair Exhaust

Dual-side outlets with a single tip on each side, paired with a mudflap bracket for added presence. Delivers an assertive visual stance and a commanding performance note.

# STEP 6

## - EXTERIOR STYLING + COLOR

Choose your body color.

Your Heritage Defender build can be finished in 15 Land Rover Original OEM colors as part of the standard contract. Each colorway option is carefully selected to honor the classic Defender aesthetic.

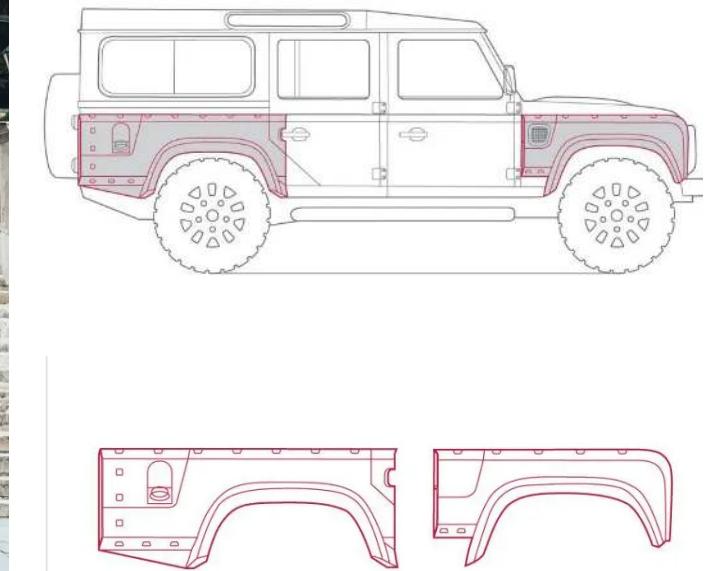

## STEP 6

### - EXTERIOR STYLING + COLOR

#### Wide-Arch 6-Piece System.

Transform the stance of your Defender with our Wide-Arch 6-Piece System, available in a curated selection of exclusive CTC finishes. Each option delivers a bold, tailored look that enhances both presence and personality. Available in, Volcanic Rock Satin Grey, Himalayan Rock Salt, Satin Pink, Fjord Green Satin or Textured Raptor Liner. A striking aesthetic upgrade with unmistakable CTC design DNA.

## STEP 7

### - WHEEL OPTIONS + COVERS

Wheel Options.

Wolf Steel - 16"

6.5 x 16" Black alloy wheels which rings true to the nostalgia and heritage of the vehicle.

Caradoc - 18"

9 x 18" Satin Black alloy wheels which adds a modern, aggressive look to your Heritage Defender.

Kahn 1983 - 18"

8 x 18" Matte Black alloy wheels with a unique asymmetrical twist on the spoke alignment. They are bold, yet subtle.

Kahn Mondial Retro - 20"

10 x 20" Satin Black / Anthracite alloy wheels with its concave 5 spoke design and retro-inspired styling.

## STEP 7

### - WHEEL OPTIONS + COVERS

Wheel Covers.

Chelsea Truck Text Hard Cover / Chelsea Truck Crest Hard Cover

Enhance the rear presence of your Defender with the CTC Expedition Hard Spare Wheel Cover, expertly crafted to offer rugged protection paired with refined elegance. For a truly exclusive touch, the limited edition CTC Expedition Crest Hard Spare Wheel Cover delivers a flawless fusion of robust durability and sophisticated style.

Mirror Lettering.

Chelsea Truck Company Mirror Lettering

Add a touch of bespoke elegance to your Chelsea Truck Co Hard Spare Wheel Cover with our mirror lettering set. Designed meticulously, these letters fit seamlessly inside the embossed Chelsea Truck Company hard spare wheelcover, enhancing its visual appeal.

## STEP 8 - TIRE OPTIONS

Tires matter as much as wheels.

Choose the tires that define your Defender Heritage Build's performance. The Pirelli Scorpion All Terrain delivers reliable off-road traction and versatility for adventurous driving, while the Michelin Defender Road Tire provides crisp handling, comfort, and confidence on paved roads. Whichever you select, we'll ensure your tires are matched to your driving style and terrain for optimal control, ride quality, and performance.

# INTERIOR

## TRIM COLOR, MATERIALS AND STYLE CHOICES

The Heritage Program by ECD features a fixed, non-customizable seating layout engineered to be practical, durable, and built for versatility, delivering the ideal balance of comfort and usability for your classic Land Rover.

### **D90 - 6-Seat Utility Layout**

Corbeau Captain's seats up front with two inward-facing two-person bench seats in the load area.

### **D110 - 9-Seat Utility Layout**

Corbeau Captain's seats up front, high-back seats in the mid-row, and two inward-facing two-person bench seats in the load area.

# STEP 9

## - INTERIOR CHOICES

Interior trim color + material.

Your standard contract includes black vinyl with black stitching, but you can elevate your driving experience with our bespoke Comfort Leather Interior. Featuring an innovative 3D modular design, or Square/Diamond stitching, it is available in six striking colors: Tan, Orange, Black, Red, Pink, or Blue. Crafted from the finest high-quality leather, this interior blends exceptional comfort with refined sophistication. Its sleek, modern design offers a personalized aesthetic that reflects your individuality, transforming every journey into a luxurious and memorable experience.

# OPTIONAL ACCESSORIES

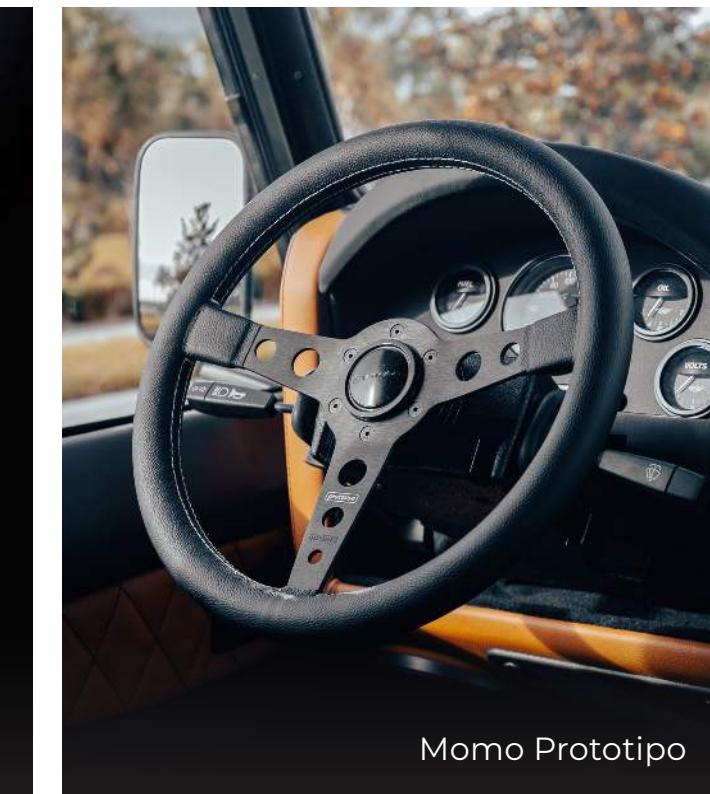

## STEP 10 - OPTIONAL ACCESSORIES

### Steering Wheel.

Exclusively for the Land Rover Defender, these steering wheels blend style and durability. The Momo Prototipo offers a race-inspired grip for precise control, while the Billet Steering Wheel DEF Classic features a 3-spoke brushed satin aluminum design for timeless style and lasting performance. Both deliver an OEM+ fit and finish.

Momo Prototipo

# STEP 10

## - OPTIONAL ACCESSORIES

OEM Grille - Standard Contract

Heritage Grille

X-Lander Kit + Light Surround

Grille and light surround.

Upgrade your Heritage Land Rover Defender 90 or 110 with our premium front grilles, designed to blend style and functionality. The Classic OEM Grille has the style that keeps the heritage of the Defender with its simplicity. The Classic Grille is similar to most mid-modern day vehicles. The vented style is designed for maximum airflow and a classic fit. The Heritage Style Front Grille honors the classic Defender aesthetic while providing a precise, OEM-grade fit that integrates seamlessly with your vehicle. The X-Lander Front Grille with Headlight Surrounds adds a modern, rugged touch, enhancing both appearance and protection. Crafted from high-quality materials, these grilles deliver durability and refined detail, giving your Defender a commanding presence while staying true to its iconic design.

## STEP 10 - OPTIONAL ACCESSORIES

### Wheel Arches.

Fitment - 90/110

Give your Defender 90 a bolder stance with Chelsea Truck Company's Wide Forest Wheel Arches. Crafted from durable glass fiber composite, they add width for larger tires while enhancing the classic silhouette. Supplied in raw satin black, they're ready for painting or custom finishing, combining style, strength, and practicality.

## STEP 10 - OPTIONAL ACCESSORIES

### Front Bumper.

Upgrade your Defender with rugged, functional front protection. The DRL Front Bumper offers an OEM-style design with integrated daytime running lights and durable rubber end caps, combining style and practicality. For maximum capability, the ARB Winch Bumper Combo features a full steel bumper with a Warn VR 10K winch and steel cable, delivering strength, utility, and confidence on any terrain.

OEM w/ DRL's

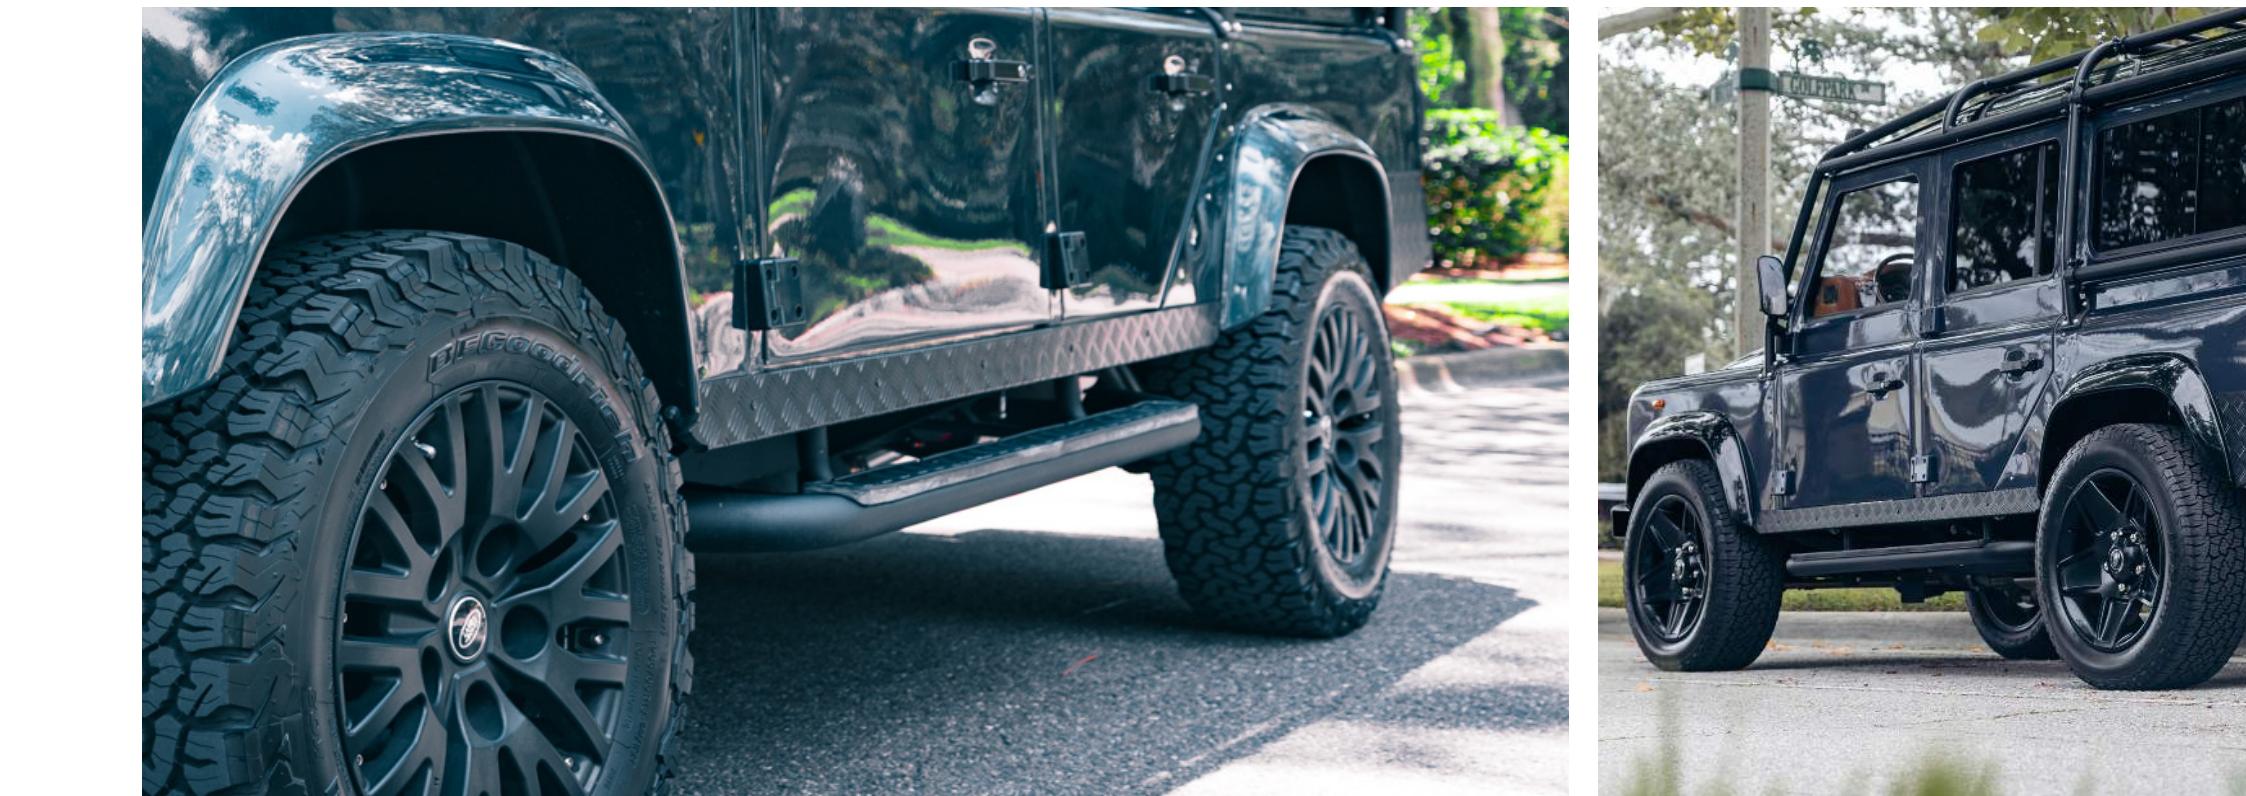

ARB Winch

## STEP 10 - OPTIONAL ACCESSORIES

Upgrade to Full-Length Tubular side steps.

Elevate both form and function with full length tubular side steps, an essential upgrade from the included traditional folding steps. Designed to provide easier entry and exit while adding a layer of rugged off-road protection, these durable tubes enhance accessibility, improve stance, and deliver a more confident, capable look for your Defender.

## STEP 10 - OPTIONAL ACCESSORIES

### Dual Roof Light.

Elevate the aesthetic of your Land Rover Defender with our Front Roof Shield featuring integrated LED roof lights. This rugged yet stylish accessory not only enhances your Defender's overall look but also provides a practical lighting solution with included LED roof light technology. Invest in the perfect blend of functionality and style with our premium LED roof shield.

## STEP 10

### - OPTIONAL ACCESSORIES

Four Point Roll-Cage

Exterior Roll Cage.

The 4-Point Frontal Exterior Roll Cage is designed to combine striking aesthetics with functional reinforcement. The 4-point bolt-in roll cage is finished in durable black, enhances the rugged presence of your Defender while providing added structural strength. Crafted for a perfect fit on Station Wagon models, it integrates seamlessly with the vehicle's exterior lines, offering a bold, purposeful look that complements both classic and modern styling cues whilst reinforcing its adventurous spirit.

CNC Handle

CNC Hinge + Handles Set.

The ECD CNC Black Hinge and Handle exterior set, precision-machined for a refined yet purposeful look. Finished in anodized black, this full set of door, hood, and windshield hinges, along with exterior door handles, delivers a clean, modern contrast design.

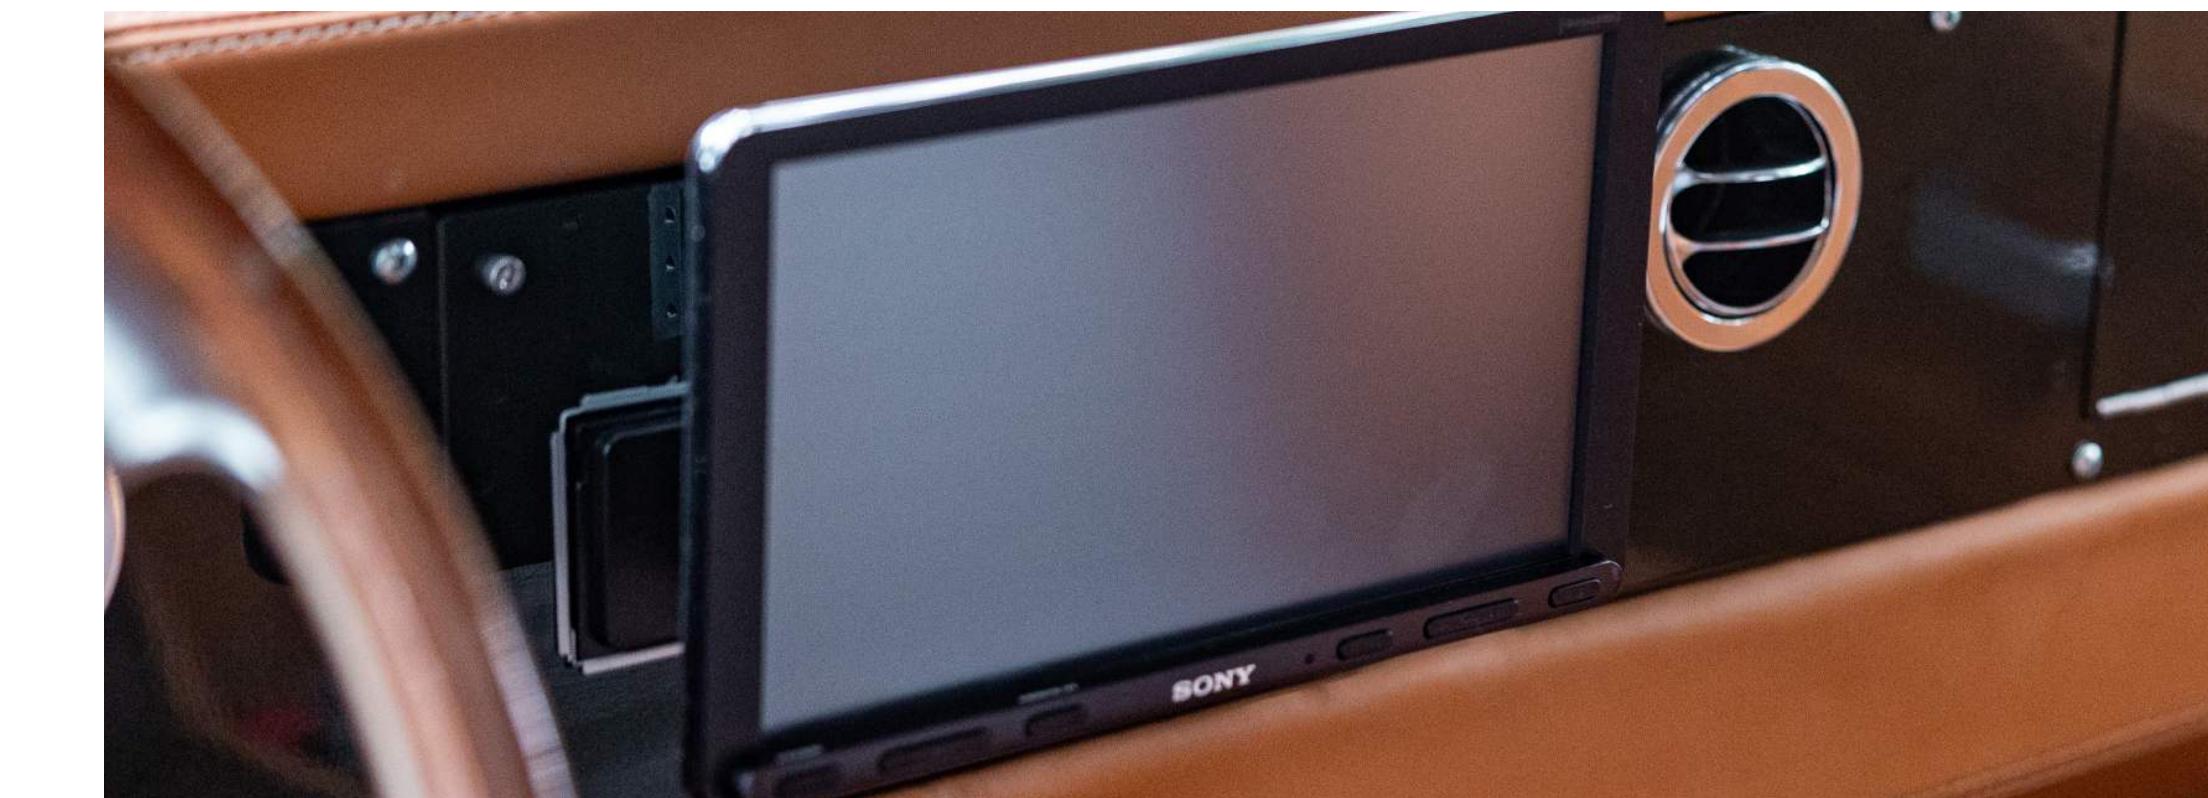

# ELECTRICAL ACCESSORIES

## STEP 11

### - ELECTRICAL ACCESSORIES

#### Radio Options.

Your Heritage Defender comes standard with a retro-inspired Blaupunkt 4-channel radio featuring Bluetooth audio and USB connectivity. For those seeking modern convenience, you can upgrade to an Android-based floating display with full Apple CarPlay integration, bringing contemporary technology to your classic driving experience.

## STEP 11 - ELECTRICAL ACCESSORIES

Infinity Audio system upgrade.

Your Heritage Defender comes equipped with a Pioneer 4-speaker audio system as standard. For a richer, more immersive listening experience, you can upgrade to the Infinity 8-speaker package, delivering dramatically enhanced lows, mids, and highs for a full-spectrum sound upgrade throughout the cabin.

## STEP 11 - ELECTRICAL ACCESSORIES

Dual rear entertainment screens and USB connectivity.

Keep passengers entertained with crisp dual rear entertainment screens and convenient rear USB ports delivering modern entertainment and effortless device charging for every journey.

# LAND ROVER DEFENDER TAILORED TO YOU

“At ECD, we take pride in carefully crafting each Land Rover Defender with passion and precision. Our skilled artisans select only the finest parts to ensure every build reflects quality and attention to detail. We look forward to creating your personalized Defender and providing an exceptional experience that exceeds expectations, with care and dedication at the heart of everything we do.”
