PORSCHE 911 (993)

“When the idea [of creating a 911] began to take shape, I reached out to my friends at ECD Automotive Design with the hope of bringing it to life. Having previously worked with them on a custom 9-seat Land Rover, I knew the kind of care, creativity, and craftsmanship their team puts into every detail.”

Paul Gravette, Owner of Project Gravette

ECD 911 (993) BUILD

**Our 911 (993) Builds are faithful recreations.
Crafted to mirror the original legacy.**

The ECD Porsche 911 (993) celebrates the final chapter of the air-cooled era, where timeless engineering meets modern craftsmanship. Rather than simply restoring a classic, ECD reimagines the 993 with a careful balance of preservation and innovation, honoring the character that made it one of the most revered sports cars ever built.

From the unmistakable wide rear stance to the analog gauges and driver-focused cockpit, every element is approached with intention. Materials, finishes, and mechanical details are meticulously considered to enhance the experience while staying true to the spirit of the original car.

What defines the ECD 993 is its respect for authenticity paired with bespoke execution. Each commission is tailored to its owner, elevating the fit, feel, and driving experience without compromising the raw connection that defines an air-cooled 911.

The result is a deeply personal interpretation of a legend. For those who appreciate the purity of the 993 and the artistry of true craftsmanship, the ECD Porsche 911 (993) offers an enduring icon, thoughtfully reborn for a new generation of drivers.

ECD 911 (993) BUILD

The 911 (993) Build -

PERSONALIZE YOUR PORSCHE 911 (993)

No vehicle is complete without adding your unique touch.

One of the most rewarding parts of commissioning an ECD Porsche 911 (993) is the freedom to shape every detail around your vision. From exterior finishes and wheel selections to bespoke interior materials and modern driving enhancements, every element can be tailored to create a 993 that feels uniquely yours.

Recent commissions have included custom leather and Alcantara interiors, heritage-inspired colorways, modern infotainment discreetly integrated into the classic dashboard, upgraded suspension and braking systems, and hand-finished trim throughout the cabin. Whether the goal is a pure driver's car or a refined grand touring experience, the possibilities for personalization are nearly limitless.

“This Florida-based outfit may be best known for striking Defender restomods, but it’s just shown what it can do with an air-cooled 911.”
